Dear Mr. Price:

The new book of my historical series deals with the development of Orangeism, particularly in Peel County. In connection with this I am anxious to have as much information about the old lodges in Peel as possible.

Miss Mary Price tells us that you have an address given your grandfather, John C. Price, in the 80's. I would like to get the exact date of this address, and any names or particulars that would help me in tracing the history of the old Cooksville Lodge.

I will appreciate all the information you are able to send me on this subject.

It is sometime since your letter was received and I regret the delay in answering because your letter was mislaid.

It brought many memories of bygone days, those High School days when we all thought we were so important and that the eyes of the world were surely turned upon us and our doings.

Dear Florence:

For some time now I have been collecting material and data for a History of the County of Peel in which one of the most important chapters will be that on HEALTH. In this chapter, I am trying to publish a record of all the medical men in the county - those who have gone out from it as well as those of the profession in it.

I have been unable to get any information concerning Dr. Secord Large. I understand his last address, in the American Medical Directory, was given as Cleveland. Do you know if he is still there, and if so, can you give me his address at present.

I am so sorry I never see you when you are in Canada. Please keep my address somewhere and the next time you are up this way you might call and we could have a chat.

Dear Florence Anthony: Re Peel History

I am struggling with a History of the County of Peel. As you have long known, you were an interesting girl in my family and myself, and now your distinguished husband becomes especially interesting to us also. I have before me "New Light on some Relationships between Soil Mineral Deficiencies, Low Vitamin Foods and some Degenerative Diseases, Including Dental Caries with Practical Progress in their Control", Reprinted from The Bulletin of the Indiana State Dental Association.

I am devoting a volume, from 300 to 400 pages to Health, tracing Dentistry and Medicine and Sanitation, etc., etc., and everybody associated with these professions in this country, using the County of Peel for illustration, and starting from the earliest times.

Our mutual friend, Dr. Walter Earl Willmott has shown me this pamphlet, which he borrowed from Dr. Price's brother here. I should like a couple of copies, if they are available. If you will let me know where to get them, I will be glad, of course, to get them and send for them and pay for them.

I am particularly interested in some information that Dr. Frank Price gave Walter Willmott with reference to your husband's research on the butter question, naming Peace River for the summer and Brampton and Georgetown for the year round. Where could I get the exact story of this?

If there are any biographical sketches or

special press notices of your husband that you will kindly lend me, I will take good care of them and return them to you by first post.

Yours sincerely,

Wm. Perkins Bull

Dear Sir:

Your letter of the 11th December, addressed to the Deputy Provincial Secretary, has been transferred to this office.

For reasons which on consideration I am sure you will fully appreciate, it will be quite impossible for me to furnish the information you require. I can only suggest that you deputize some person to come to the Parliament Buildings and make a search in the records of the Archivist and the Executive Council office. These records would probably be complete since the date of Confederation. Prior to that I presume the information would be in the hands of the Dominion Archivist at Ottawa.

Dear Sir: Re Peel History

I am anxious, for my forthcoming history of Peel, to secure data regarding the constituency of Cardwell, which, for a time, included the Townships of Albion and Caledon which for municipal purposes have always been part of Peel.

Can you let me know at what date these Townships were incorporated with Cardwell and whether this was on the occasion of the formation of the latter constituency?

Also, when was each Township restored to its union with Peel and did Cardwell continue to exist after such time?

If there is any way in which you could let me have a list of the members of Parliament for Cardwell during its existence, I should be most grateful.

When you and I were boys you would be called sometimes M. L. A., and sometimes M. P. P. Of course we were taught at school that Parliament was at Ottawa and Legislature in the Province.

Was there at any time any formal step taken by the house as to which designation should be used? If so, I imagine it might possibly be in your department and in which event I am sure you will kindly let me know what steps were taken and when they were taken and whether or not there were any debates or discussions on the question.

Dear Sir

Replying to yours of 7th inst. Mr Adam Morton was for many years principal of the Brampton public school. He had two sons James and Robert. James taught school east of Brampton for a time, then studied law and practised in Wingham until a short time ago when he died there. Robert learned marble cutting at Thomas Wilson's shop in Bpton, and after a time opened a shop as per your letter. His father must have been the Co. I knew no other. Robert got tired and moved to Michigan, I bought the balance of his stock which was small, and filled the orders he had on hand.

His father died in 1913 and his mother in 1912. Robert died in Michigan many years ago.

Hope this information may be satisfactory
